

Follow-up Questionnaire for the Stakeholder Consultation held on April 28, 2026

Please help us by completing the questionnaire below. The purpose of your responses is to evaluate the quality, clarity, and transparency of the stakeholder consultation, to improve the quality of future communications, and to ensure that the project development is properly documented.

Name: Manas GIZHDUANI

Organization (optional): AIFC Green Finance Centre

E-mail: ggg270690@gmail.com

Signature: <see original document> Date: 30.04.2026

Please rate the following statements on a scale of 1 to 5 (1 = I strongly disagree, 5 = I strongly agree). Circle your answer!

1. The organization and conduct of the stakeholder consultation were appropriate.
1 2 3 4 **5**
2. During the consultation, there were ample opportunities to ask questions and express opinions.
1 2 3 **4** 5
3. The project's objectives and expected results were presented clearly.
1 2 3 **4** 5
4. The project timeline (launch, implementation, monitoring, credit issuance) was clear and easy to follow.
1 2 3 **4** 5

5. The technologies and practices to be used in the project (reduced tillage, biostimulants, etc.) have been adequately described.
1 2 3 ☒ 4 5
6. It was clearly explained how the project contributes to increasing the soil's organic carbon content and reducing greenhouse gas emissions.
1 2 3 ☒ 4 5
7. The description of the project's environmental and social impacts was adequate.
1 2 3 4 ☒ 5
8. Which parts of the consultation did you find most interesting?

Monitoring System, Results, and Carbon Unit Issuance Mechanism

9. Which topics would require a more detailed explanation or additional information?

Risk Management of non-delivery and Verification Procedure

10. Do you see any technological, environmental, social, or economic risks that the project should address specifically?

it is necessary to take into account the risks of distributing income
and obligations between the farmer and the project developers

11. Do you have any other suggestions or comments regarding the project or the consultation?

—

12. If you are participating in the project as a farmer, how can we help you with your work on the project?

—
